

Awnings

G'Day ... We provide comfort and extend lifestyle in our great nation. Our conditions can be extreme, so our products have to withstand those elements. At Sunstate we specialise in external shade & weather protection (hence our name!). Providing solutions to harmful UV penetration is all we do! We have been servicing Queenslanders since 1976 and our experience dates back to 1965.

The information here on our website is intended to give the best insight into our products and service, things you should expect from a supplier that offers you a choice! PS: If you do not find what you are looking for, or are still unsure as to what your requirement may be.... simply call us! Thank you and enjoy!
